**作文題目：Swindling: How it is done and how it can be prevented** (100%)

Write an essay of about 200-250 words in appropriate style according to the following topic.  
Write your answer on the Answer Sheet with the topic.

We sometimes hear news about the elderly being cheated out of their money or property by swindlers in the news. These crooks use several ways to take advantage of the vulnerable people like the elderly, the uneducated or the worried (parents). Write a 4-paragraph essay using the following format. You should have a introduction paragraph. Then you describe two of the ways used by the criminals in the second paragraph. After that, discuss how people can be helped from becoming victims of such crimes in the third paragraph. Conclude your essay at the end.

**In the first paragraph.** First, provide one such event that you have heard to attract readers' attention. Then describe why you think this is an important topic. Finally tell your readers two common ways of swindling, and then how swindling can be prevented.

**In the second paragraph.** Tell your readers two common ways of swindling. Use examples, explanations or details in your description.

**In the third paragraph.** Suggest (about three) ways to prevent swindling from happening. Again, use examples, explanations or details in your description of the suggestions.

**In the final paragraph.** Using different expressions or paraphrases, summarize what you have said in paragraphs 2 and 3. End your essay by saying something positive about the topic.
